

CDM File

Empty Table

schema_conception

Input files (csv/
parquet)

schema_
individual_views

View

through
parquet

yes

no

no

If format is
parquet

Does input
match CDM
schema

yes

Fill empty
tables with
queries on
views

Materialized
Database

Parquet

View

Combine
Views for
Each Table

schema_combined_views

If view_db_as
== "tables"

Materialize
Database

If through_parquet = 'no', by default materialized database
If view_db_as = 'views', by default through_parquet = 'yes'
I.e., possible combinations (for both csv and parquet):
- through_parquet = 'yes', view_db_as = 'views';
- through_parquet = 'yes', view_db_as = 'tables';
- through_parquet = 'no', view_db_as = 'tables';
